EXPERIENCE

DreamBox Learning — *Full Stack contractor via Encora*

January 2020 - PRESENT

Working as a Full Stack Engineer working on DreamBox's *Insights* dashboard (Built with Spring and Angular).

- Consuming data from services which our project depends on to source the data for multiple reports.
- Building a Reporting infrastructure

Encora Mexico — *Software Developer*

January 2020 - PRESENT

Working as a contractor for the company DreamBox Learning through Encora Mexico. Some of my responsibilities as an Encora employee are:

- The growth of our team at DreamBox by developing a strong relationship with our client through work
- Interviewing potential candidates for the open positions in our team.

Grupo Corasa — *Software Developer*

July 2018 - September 2020

Worked as a fullstack developer (Java, JavaFX, Node) on Invoicing and Payroll solutions for small to mid-sized Mexican Companies.
